

## **Memo: Coronavirus Disease (Covid-19)**

Date: 25/3/20

From: Social Works Ltd

We will continue to monitor closely the spread of the "coronavirus disease 2019" (Covid-19) and act in accordance with government advice and regulations as and when they are announced.

**At the present time this mean that following the latest advice we will no longer be carrying out any face-to-face training. This is to limit the risk of further spread of the virus to staff and the end users of care services.**

We are working on a variety of ways of delivering our core short courses using a combination of video conferencing, email and telephone support.

In this way we are able to deliver the following to new and existing care staff:

- [Care Certificate \(knowledge\) – all standards except Basic Life Support](#)
- [Level 2 Certificate in Principles of Medication Handling and Administration for Care Settings \(RQF\)](#)

Other courses being launched using the same methods include:

- Level 2 Certificate in Introduction to Autistic Spectrum Conditions (RQF)
- Level 2 Award Awareness of Dementia (RQF)

As we develop new learning options for virtual study, we will be adding them to the website.

Please don't hesitate to contact us if you have any questions at all about any of the above.
